Phi Mu Fraternity to Establish a New Chapter At California State University, Sacramento

PEACHTREE CITY, GA—Phi Mu Fraternity's National Council is pleased to announce that Phi Mu has been invited to establish a new chapter at California State University, Sacramento (known as "Sacramento State") in the spring of 2016.

Founded in 1947, Sacramento State has seven colleges, offering 58 undergraduate majors to nearly 30,000 students. The University, nestled in an urban forest alongside the American River, is only a few miles from California's Capitol.

"As a long-term Phi Mu volunteer, I could not be more proud to celebrate the fact that we will soon establish our fourth active collegiate chapter in the state of California! This has been a continued goal for Fraternity leaders and I'm so happy that we were selected by the Sacramento State Panhellenic. The campus community is thriving there and the administrators, staff and current Greek organizations will be excellent partners to us," said National President Beth Monnin, Rho, Hanover College.

This will be the Fraternity's fourth active collegiate chapter in the state of California, joining California State Universities at Northridge, Stanislaus and Fresno. Phi Mu will join Alpha Phi, Alpha Chi Omega, Delta Gamma, Gamma Phi Beta, Phi Sigma Sigma and Sigma Kappa as the seventh National Panhellenic Conference organization at Sacramento State.

To refer a potential new member, ask questions about the recruitment process, or to volunteer to assist with Phi Mu's recruitment at Sacramento State, please contact Extension Coordinator April Roberts, Gamma Kappa, UNC-Wilmington, at aroberts@phimu.org.

Founded in 1852, Phi Mu is a women's organization which provides personal and academic development, service to others, commitment to excellence and lifelong friendship through a shared tradition. Phi Mu promotes vibrant living, encouraging members to achieve their personal best.
